Professional Summary Senior Full-Stack Engineer with 7+ years of experience in backend development, frontend architecture, and scalable system design. Proficient in **PHP, Node.js, React.js**, Redis, AWS, and microservices, with a proven record of building high-performance platforms for government and enterprise-scale applications. Expertise in designing fault-tolerant systems, **full-stack API development**, and optimizing both backend services and frontend applications for high concurrency and large datasets.

Core Competencies

- **Languages & Frameworks:** Node.js, **PHP (Laravel, Symfony)**, JavaScript, **React.js, Redux**, Express.js, JQuery
- **Databases:** MySQL, **MongoDB (NoSQL)**, Redis
- **Cloud & DevOps:** AWS, Docker, Load Balancing
- **Architecture & Messaging:** Microservices, **RESTful APIs**, GraphQL, Kafka
- **Frontend:** **React.js, React Hooks, State Management, Component Architecture**
- **Others:** Scalable Architecture, System Design, **Full-Stack Development**

Professional Experience

NetProphets Cyberworks Pvt Ltd Senior Software Engineer | Nov 2021 – Present **Key Projects:** ♦
Ayushman Arogya Mandir – Pan-India Government Health Project

- Architected **full-stack solution** with **PHP backend APIs** and **React.js dashboard** for a national health platform serving **2+ lakh users**.
- Built **React.js admin interfaces** with **Redux state management** for real-time health data visualization.
- Handled a **200 GB+ NoSQL database (MongoDB)**, split into **read/write nodes** for optimized performance.
- Integrated **Redis** for concurrent session management and **React component caching**.
- Deployed infrastructure across **three load-balanced servers** with **React.js frontend optimization**.

♦ **Fit India Movement – Government Fitness Campaign**

- Developed **PHP/Laravel RESTful APIs** consumed by **React.js frontend** for fitness registrations and QR-based cycle booking.
- Created **React.js admin dashboard** with real-time verification workflows and activity tracking components.
- Implemented **React hooks and context API** for state management across complex UI flows.
- Scaled **full-stack architecture** to handle **tens of thousands of users** with **React performance optimization**.

♦ **UKPSC Portal**

- Engineered **React.js-based admin dashboard** with **PHP backend** and objection management module for **29,000+ users**.
- Implemented **React component libraries** for reusable UI elements across government portals.

♦ **NAS Survey & PGI Analytics**

- Led **full-stack development** using **PHP APIs** and **React.js data visualization** for **National Achievement Survey** covering **12+ key educational indicators**.

♦ **E-Commerce Platform**

- Contributed **PHP backend modules** and **React.js frontend components** to a **multi-vendor ecommerce solution** with **MongoDB integration**.

Provab Technosoft Software Engineer | *Aug 2021 – Oct 2021*

- Developed **PHP RESTful APIs** with **React.js frontend integration** for **IPLT20 Sports Management Platform**.
- Implemented **React.js real-time updates** consuming **MongoDB** and **MySQL** hybrid data models.
- Optimized **React component performance** using **memo**, **useMemo**, and **useCallback** for sports data rendering.

Day Night Technologies Pvt Ltd Software Engineer | *Feb 2021 – Sep 2021*

- Designed **PHP/Laravel APIs** with **React.js dashboard interfaces** for **Admin panels**, **CMS**, and **cryptocurrency platforms**.
- Built **React.js trading interfaces** integrated with **MetaTrader 4 (MT4)** for real-time forex data visualization.
- **Key Projects:** capitalxtend.com, inveslo.com (**Full-stack PHP + React.js**)

Loud Medics Software Engineer | *May 2019 – Feb 2021*

- Built **full-stack applications** using **PHP backends** with **React.js frontends** for **ecommerce**, **gaming**, and **content platforms**.
- Developed **React.js component architectures** for real-time user interaction and dynamic content rendering.
- **Key Projects:** F1 in Schools India, Cooke & Kelvey, HeroMotor (**React.js + Node.js/PHP**)

ZMQ, Delhi Software Engineer | *Feb 2016 – Jun 2018*

- Developed **PHP-based health platforms** with **React.js mobile-responsive interfaces** for **NGOs** and **public health programs**.
- Created **React.js progressive web applications** for offline-capable health tracking systems.
- **Key Projects:** YourStoryTeller, FreedomTB, MiraChannel (**PHP + React.js**)

Education 🎓 **Master of Computer Applications (MCA)** – Aligarh Muslim University, Sep 2016
🎓 **Bachelor of Information Technology (BIT)** – Aligarh Muslim University, Jun 2012
